

# Initiatives - Corona Crisis

---

Palestinian  
Information  
Technology  
Association  
of Companies

The Palestinian Information Association Technology of Companies - **PITA** aims to develop the ICT sector and promote its products, services and initiatives. We are aware of the important role we play in providing the optimum help and support during this critical time. Thus we are actively monitoring the COVID- 19/Coronavirus situation and we are taking steps that can help others during this period. We sincerely appreciate the effort our members are portraying in this epidemic; and with their innovative services and initiatives we shall pass this storm together and prove that the ICT sector is truly the leader of the other Palestinian sectors.

# Members' Contributions
